Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Thursday 23 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Becoming cloudy with the odd spot of rain. Strong winds.

Today:
A bright start, but cloud soon increasing, bringing some outbreaks of light rain and drizzle. These will mainly be across western hills, where hill fog is also likely. Strong winds will gradually ease through the afternoon. Maximum temperature 16 deg C (61 deg F).

Tonight:
Remaining rather cloudy overnight, with areas of fog and the odd spot of light rain and drizzle on western hills. Winds strengthening once again overnight, particularly over high ground. Minimum temperature 10 deg C (50 deg F).

Friday:
Rather cloudy and windy with some further outbreaks of light rain and drizzle, predominantly across western hills. Maximum temperature 19 deg C (66 deg F).

Outlook for Saturday to Monday:
Rather cloudy Saturday with some patchy light rain. Sunny spells and a few showers Sunday. A band of heavy rain and strong winds moving eastwards overnight, clearing to showers Monday.
